Exhibitors may choose to ship freight to the advance warehouse or directly to show site. Valley Expo & Displays will receive and manage the freight at the warehouse and/or on show site as described in the following pages. Freight handling fees are paid to Valley Expo & Displays for these freight handling services, and are separate from and independent of freight transportation charges, which are paid to a freight carrier such as YRC, ABF, FedEx or any other carrier of the exhibitor’s choosing. Exhibitors are responsible for securing a carrier of their choosing and arranging freight transportation to and from the event, and all associated transportation fees.

All inbound shipments must have a Bill of Lading and/or certified weight ticket showing the number of pieces, type of merchandise and weight. Shipments received without this information will be delivered to exhibitor’s booth without guarantee of piece count or condition. No liability will be assumed by Valley Expo & Displays for such shipments. The weight is rounded up the next one hundred pounds (100 lbs) and is taken from the inbound BOL and/or certified weight ticket. Separate shipments will not be combined. Shipments arriving without a specified weight on the BOL will be assigned and approximate weight by Valley. This weight will prevail.

Authorization To Provide Freight Handling Services: By completing the Freight Handling Order Form, it is understood that Valley Expo & Displays and its subcontractors do not automatically insure materials, that insurance, if any, shall be arranged by the Exhibitor and the amounts payable to Valley Expo & Displays for drayage services are based on the value of the material handling services and the scope of Valley Expo & Displays liability as herein set forth. The amounts payable to Valley Expo & Displays are unrelated to the value of the Exhibitor’s property being handled by Valley Expo & Displays or its subcontractor. It is impractical and extremely difficult to fix the value of each shipment handled by Valley Expo & Displays or its subcontractors. It is agreed therefore that if Valley Expo & Displays or its subcontractors should be found liable for loss or damage to Exhibitor’s materials, the liability shall be limited to the specific article that was physically lost or damaged. Such liability shall be limited to a sum equal to 30 cents per pound per article, with a maximum liability of $500 per item, or $1,000 per shipment, whichever amount shall be less, as agreed upon damages bit as a penalty, and such agreed upon damages shall be the Exhibitors exclusive remedy. Exhibits left on exhibit floor without return instructions will be returned to our warehouse and held for disposition at an additional charge. Valley Expo & Displays will not be responsible for condition, count or content until such time as exhibits or materials are picked up for removal after the close of the exhibition.

### Advantages

| Materials will be delivered to your booth prior to your arrival on site. Exceptions may occur. |
| Delivery dates and times are more flexible. |

### Estimating Material Handling Charges

- Charges will be based on the weight of your shipment. Each shipment received is considered separately. The shipment weight will be rounded to the next 100 lbs. Each 100 lbs. is considered one “cwt” (one hundred weight). All shipments are subject to reweigh. (200lbs minimum charged on all shipments weighing 51lbs - 200lbs)
- Select the category that best describes your shipment. There are two categories of freight.
  - **Crated:** Material that is skidded or in any type of shipping container that can be unloaded at the dock with no additional handling required.
  - **Special Handling:** Material delivered by a carrier in such a manner that it requires additional handling, such as ground unloading, stacked or constricted space unloading, designated piece unloading, shipment integrity, alternate delivery location, loads mixed with pad wrapped material, carpet and/ or pad only shipments, no documentation and shipments that require additional time, equipment or labor to unload. Federal Express, UPS Ground, & DHL are included in this category due to their delivery procedures.
- Add Overtime and/or Double Time surcharges for inbound if material is delivered to the booth during the overtime and/or double time period.
- Add Overtime and/or Double Time surcharges for outbound if material is loaded onto the outbound carrier during the overtime and/or double time period.
- Add the early/late surcharge if the shipment is accepted at the advance warehouse before or after the deadline dates listed above.

**Direct Shipments Only:**

1. What date and time are you scheduling your shipment(s) to arrive on-site?

   ________________________________
   ________________________________
Outbound shipping is not an automatic process. Each shipment must have freight handling services on order and a completed Bill of Lading in order to ship materials from the show. All pieces must be labeled individually. After materials are packed, labeled and ready to be shipped, the completed Bill of Lading must be turned in at the Valley Service Desk. Do not leave this in your booth with your shipment.

Call your designated carrier with pick-up information. In the event your carrier fails to show by carrier check in time indicated on the shipping information form, your shipment will be rerouted to Valley Expo & Displays’ official show carrier at exhibitor's expense.

### Outbound Pick-Up Address & Carrier Check In

- All outbound shipments must be picked up at the show site location.
- Each exhibitor is responsible for arranging prompt pick-up and removal of outbound shipments. If you are using a carrier other than the official show carrier, it is your responsibly to contact the carrier and advise them that they must be checked in and the appropriate times.
- Drivers are placed in line for loading on a first-come, first serve basis, provided the exhibitor is completely packed and a Bill of Lading has been turned into the Service Desk. Should your carrier fail to check in by the designated time, Valley Expo & Displays reserves the right to re-route the shipment via the official show carrier as necessary, at the exhibitor's expense.

### Carrier check in Date and Time: 1/23/2020; 2:30pm

- All outbound shipments require a Valley Bill of Lading. Bills of Lading will be distributed to your booth before move out. If you do not receive a bill of lading please see the Valley Service Desk.
- A Bill of Lading must be completed for each truckload and destination. If you have multiple shipping destinations or multiple truckloads to one destination, additional Bill of Ladings are available at the valley Service Desk.
- No Bill of Lading will be issued until your invoice has been paid in full.
- Return the completed Bill of Lading to the Valley Service Desk when your materials are packaged and ready to be shipped. Turning in your Bill of Lading indicates to Valley that your shipment is ready to be loaded.
- The name of the carrier listed on your completed Bill of Lading must match the name of the carrier checking in or your freight will not be released.

Supplied Digital Art Standards

In an effort to provide you with the best graphics for your display, Valley requests that you review these file and media requirements when you supply digital art. Supplying the proper files insures that your output will look the way you expect, and keep additional charges to a minimum. If you have questions about file formats, resolution, or other graphics concerns, please call us at 815-873-1500 or e-mail events@valleyexpodisplays.com

Raster (Pixel-based) Art -
Raster art is the way most continuous tone images are produced. Scanned images, Photoshop files, tif, jpg, & bmp are examples of raster or pixel-based art. Resolution for these files should be at least 300dpi at output size. For example, a file for 16 x 20 inch output should be 4800 pixels by 6000 pixels. Both cmyk and rgb are acceptable but cmyk is preferred. It's helpful if all your files are consistently one or the other.
Use for:
Photographic or continuous tone images.

Vector Art -
Vector art is 'resolution independent', meaning it can be scaled to any size with no loss of quality. Illustrations created in Adobe Illustrator or Freehand are vector art. EPS files are the most common format for vector art.
NOTE: A Raster image imported or placed, and then saved in these programs is not changed into vector art…it is still a raster image and may not be suitable for some output options.
Logos & illustrations produced as cut vinyl MUST be vector art. If you cannot supply vector art, you may be charged for the time required to convert/recreate your art in the proper format.
Use for:
Cut vinyl, large format text, logos, graphic elements.

Art Size: Art files should be submitted with at least 0.5" bleed. (ex. 22" x 28" sign would be 22.5" x 28.5")

Raster Art can be supplied as Photoshop, jpg, tif, eps, bmp or other standard raster formats.

Vector Art should be Adobe Illustrator (.ai), InDesign (.indd) or .eps (from Illustrator or InDesign) files with text converted to paths. Include all linked files. If text is not converted to paths, all fonts must be included. When sending vector art use the package option in Illustrator or InDesign to properly export all necessary files.

QuarkExpress users, supply eps files with fonts embedded. Native Quark files are no longer supported.

Media: CD or DVD. For FTP access contact your Valley representative.
Please include a color hardcopy or pdf. Critical PMS colors should be indicated on the hardcopy.
